

SUES SHIP TRUST. CHARGES FRAUD

Charles H. Kavanaugh Begins Action to Recover \$76,000. Declaring He Was Deceived by False Prospectus.

CHARGES LEADING MEN OF CONCERN WITH CONSPIRACY

Complaint Says Capitalization Was \$45,000,000 and Not \$20,000,000, as Set Forth in the Prospectus.

Important arrests are expected almost any day now as the outcome of Gov. Odell's fight to get back the money that he and his Republican up-State friends invested in the Shipbuilding Trust. The first step in this direction is made in the suit brought by Charles H. Kavanaugh, one of the richest men in Saratoga County, to recover \$76,000 from the Shipbuilding Trust. The suit alleges that the trust was organized by a conspiracy of leading men of the State, including Mr. McKibbin, Charles C. Deming, of the law firm of Alexander & Green, Alvin W. Kreech, President of the Equitable Trust Company, and upon the Mercantile Trust Company.

Kavanaugh Charges Fraud.
In his complaint Mr. Kavanaugh declares that he was led into making the investment by a false prospectus. His direct charge of fraud is as follows: "That in or about the month of June, 1903, with the intent to cheat and defraud the public and, among others, the plaintiff, and to obtain money from the public, and profit and advantage to themselves, the defendants wickedly and fraudulently and corruptly entered into an agreement and conspiracy for the purpose of disposing of the bonds and stocks of said United States Shipbuilding Company at a figure which they knew was much beyond their true value, and thereupon wrongfully agreed to do, and, in carrying out said conspiracy, wrongfully did do, the following things:

"The complaint then goes on to describe the prospectus, alleging that it contained statements 'which were false, fraudulent and untrue and which at the time of its first publication and circulation and at all times thereafter, the defendants severally knew were false and fraudulent.'

Prospectus False, He Says.
It is alleged that the so-called false prospectus was prepared by Col. McCook, Mr. Kreech and the other defendants. The plaintiff figures that had the statements made in the prospectus been true, his holdings in the Shipbuilding Trust would be worth to-day \$85,000 instead of \$10,000. The \$76,000 he sues for is the difference between the two values and includes interest from last March. In detail the complaint says that the capitalization was \$45,000,000 and not \$20,000,000, as set forth in the prospectus; that of the prominent men named as directors only four sat on the board; that when the prospectus was issued the company was not incorporated; that instead of having contracts of \$25,000,000, an alleged, the contracts amounted to only \$14,000,000, yielding a profit of \$500,000. Instead of more than \$5,000,000, as the prospectus set forth, and that the subsidiary plants were estimated at about \$1,000,000 yearly, instead of \$2,250,000. It is expected that Gov. Odell's friends will follow the lead of Mr. Kavanaugh in bringing similar suits.

IOWA TRUST LAW IS KNOCKED OUT

Judge Platt Declares It Unconstitutional in that It Practically Forfeits the Property of a Foreign Corporation.

FINES UNDER THE STATUTE WOULD AMOUNT TO MILLIONS

Court Holds This Is a Contravention of the Fourteenth Amendment and the Law Therefore Invalid.

WATERLOO, Ia., Feb. 12.—In a decision establishing a demurrer in the case of the State of Iowa against the Illinois Central, the Chicago, Rock Island and Pacific and the Great Western railways, Judge Franklin C. Platt, in the District Court, declares the Iowa Trust Law unconstitutional and invalid for the defendant railways.

Last August the three railways leading into Waterloo fixed a demurrage charge of \$2 for every twenty-four hours a freight car was delayed in excess of forty-eight hours.

It was believed the railways were thereby amenable to a section of the code which provides that any persons or corporations entering into an agreement to fix the price of any article of merchandise or commodity shall be guilty of conspiracy.

Another section provides as a penalty a fine of not less than one nor more than twenty per cent. of the capital stock of the offending company or person.

This section of the law, Judge Platt declares, is in contravention of the Fourteenth Amendment to the Constitution of the United States, and consequently unconstitutional.

Under this section the minimum fine which could be imposed on the three railways would be \$2,280,000, and the county attorney would receive \$400,000.

The Chicago, Rock Island and Pacific, being an Illinois corporation, would also forfeit its franchise in Iowa if convicted under this charge and the fine imposed might reach the enormous figure of \$19,955,000.

In the opinion Judge Platt says: "A law which requires a man who is possessed of \$1,000,000 to pay a fine of \$100,000, while for the same offense a man possessing of \$1,000 is subjected to a penalty of \$100, would be destructive to the foundation upon which constitute the law must rest, yet such is the effect of this section."

Further, the Judge holds the indictment against the railways is defective, as it contains a flaw, since the detention of the car is not a commodity, although it might be under the same rule which declares insurance a commodity.

HILL AND HARRIMAN FOR RAILWAY PEACE

Representatives of the Magistrates in Conference Here Likely to Reach Agreement on Territory, Rates and Trackage

Representatives of the Hill and Harriman railroads are in conference in this city for several days and it is said will reach an agreement regarding territory, rates and trackage.

Darius Miller, Vice-President of the Burlington, whose word is law with Mr. Hill in all traffic matters; J. Stubbins, chief traffic manager of the Harriman lines; Howard Elliott, President of the Northern Pacific; and Benjamin Campbell, assistant traffic manager of the city last Thursday and their arrival was kept very quiet, the news just leaking out.

They have held several consultations with other executive officers of the two systems. The Harriman and Hill roads are competitive lines and there has been a great deal of friction in the past. The plan now is to arrange for a division of territory, for rates and mutual trackage rights which will permit the two great systems to be operated in perfect harmony.

It is generally believed that an agreement will be reached which will do away with all possibility of either road building into the territory of the other. This is a consummation that railroad men are devoutly hoping for.

BANK IN SYRACUSE CLOSED.
American Exchange Puts Up Its Shutters, but Promises to Pay.
SYRACUSE, Feb. 12.—National Bank Examiner John Van Vranken yesterday closed the American Exchange Bank, of this city. Mr. Van Vranken has been appointed receiver of the institution. The bank had a paid-up capital of \$200,000. According to a recent statement the bank owed to depositors \$200,000.

The officials of the bank declare that all depositors will be paid in full and that the bank is in a very interesting plight, if any. They expect to resume. There are negotiations on in case this bank cannot resume to speedily liquidate through another bank.

Richard Strauss at Home.
One of the most wonderful composers and orchestra directors living today is Richard Strauss, whose coming visit to this country is awaited with such interest by all music lovers. His home life is charming, and a visit of the Sunday World's correspondent to his home has resulted in a very interesting article, illustrated with photographs which will appear in next Sunday's World Magazine.

PUBLIC WINS IN TRANSFER FIGHT

N. Y. City Railway Co., Frightened by Rapidly Growing Pile of Judgments, Decides to Greatly Extend the System.

DOES NOT EVEN WAIT TO HAVE TICKETS PRINTED

Citizens' Transit Reform Committee of One Hundred Elated Over Victory and Will Hold Out for Further Concessions.

The New York City Railway Company, formerly the Interurban Street Railway Company, has surrendered in the transfer matter.

Frightened by the rapidly growing pile of judgments, growing out of civil suits based on the refusal of the company to give transfers, an order has been issued to the conductors to issue transfers at Fourteenth street and Broadway. Twenty-third street and Broadway and Third avenue and Third-fourth street. It was also decided to give transfers southward between the Lexington and Lenox avenue cars running through One Hundred and Sixty-fourth street and Madison avenue line, and both directions between the Broadway and Sixth avenue lines, where they cross at Thirty-fourth street.

The company didn't even wait to have transfers printed for the new points, but ordered the conductors to punch the old transfers. The signature of President Vreeland.

The Citizens' Transit Reform Committee of One Hundred, which has been leading the fight against the company in the matter of transfers, looks upon the new order as a big victory. J. S. Lehigh, of the committee, said that the fight would not stop, however, until the company had agreed to everything demanded by the committee.

Despite the surrender of the company many new transfer suits have been begun against it by Justice Joseph in the Seventh District Municipal Court for suits for transfers to issue transfers to passengers. Harcourt Bull, of No. 15 Williams street, was named in seventy-one suits for penalties. Justice Joseph gave a judgment for \$50 against the company for each suit. It is said the road against the New York City Railway Company by Mr. Bull aggregate more than \$35,000.

SOFT COAL WILL BE MUCH CHEAPER

Producers Agree to Cut the Price in Some Instances as Much as 50 Per Cent. Under Last Year's Prices.

After dining at the Waldorf-Astoria, a number of the principal producers of bituminous coal talked about a new schedule of prices for the season about to open. It has been usual at this time of the year for the trade to reach an agreement. The practice is to sell to consumers on contracts which are made early in the spring and govern the prices for the ensuing year.

As a result of yesterday's meeting, it was agreed that prices will be much below the scale adopted a year ago. It is understood that the coal trade has been sold on contract at a price of \$1.50 a ton. The agreement was made on a one-year basis. The agreement was made on a one-year basis. The agreement was made on a one-year basis.

LONDON BROKER FAILS.

Sharp Decline in American Stocks Given as Cause of Suspension.
LONDON, Feb. 12.—The failure of William Rae Morrison, a jobber in American securities, was announced today on the Stock Exchange.

Mr. Morrison, who joined the London Stock Exchange in 1881, has been at No. 2 Throgmorton street. While his business was not extensive he carried a good line of stocks, and the steady decline of Americans, which up to date have averaged a 5 point drop, got him into trouble. He has no New York connections.

UNION PACIFIC HAS THE ALTON SYSTEM

Pennsylvania 'Could Not Have Secured It Because Harriman and Gould Would Stand Together Against Such a Deal.

Pennsylvania has not purchased the Alton system according to excellent authority, but from the same source it is learned that the system has changed hands and the stock has passed from the old control to the new on the basis of 40 for the common and 50 for the preferred.

This means that the purchasers have paid \$10,000,000 for the 200,000 shares of the preferred and \$25,000,000 for the 200,000 shares of the common stock.

The story was freely circulated yesterday that the Pennsylvania had purchased the Alton, and as that road is a competitor of the Wabash, a Gould line, it was pointed out by the rumor mongers that it was a step by Mr. Cassatt to reopen the Gould-Cassatt controversy. As a result the Pennsylvania and Wabash issues were weak.

Later it developed that the purchase had been made in the interest of the Union Pacific Company. A private banking house, which attends to much of the Harriman business, refused to either deny or confirm the purchase by Mr. Harriman, but practically admitted that the road had passed from the control to another on the basis stated. This was a great deal to the Union Pacific, and would also be a big addition to the Pennsylvania. It would extend to St. Louis and Kansas City from the Western terminus of the Pennsylvania, while on the other hand, it would give the Union Pacific a connecting link between the great lakes and Chicago, thus giving it its own rail over which to handle the business. The old transfers of the road, which were made by the Harriman and Gould lines, are now being made by the Union Pacific.

Russia, the "Grafting."
New Yorkers think they know about the gentle art of "grafting" from the experience of Jerome K. Jerome. He is an expert in the industry, and so is every one else, compared with Russia. Read what he says in the Magazine section of next Sunday's World.

COTTON SALES ARE ABOVE ALL RECORDS

Transactions During the Wild Speculation of Thirty-five Days Past Show a Total of 50,000,000 Bales.

A cotton statistician has been at work over the figures that have been created in the cotton market by the recent wild speculation and has evolved some startling facts. For instance it is found that within the last thirty-five business days speculative transactions on the New York and New Orleans cotton exchanges have totaled 50,000,000 bales, or 2,500,000,000 pounds.

This is about five times the total crop of the United States. Never in the history of speculation has there been a record equal to this. Taking 15 cents as an average price the cotton total of \$7,500,000,000.

When the figures are considered and when it is also considered that new speculative records have been made in coffee and grain it is easy to understand why the stock market has been so dull. Some extraordinary speculative records have been made in the New York Stock Exchange, but never anything that could compare with this.

Financiers agree that such speculation is demoralizing and likely to come to a bad end. It is because of this that the New York bankers have tried unsuccessfully to call a halt upon the bull market. Their efforts have been unavailing because the New Orleans banks have encouraged the speculation by proposing speculators to carry the heavy decline in the price of cotton, which amounts to \$2 a bale. That is placing the total crop at 10,000,000 bales, there has been a depreciation in its value within two weeks of \$20,000,000. Such a slump in so short a time and without failures is remarkable.

Receiver Asked for Finance Com-

(Special to The World.)
CHICAGO, Feb. 12.—Henry W. Tate, of Evanston, petitioned the Circuit Court today for a receiver for the International Finance and Development Company, a \$5,000,000 corporation with headquarters in New York and branch offices in Chicago, Philadelphia, Cincinnati, Boston and Detroit. The President is John Mulholland and he is said to have declared he surrendered \$150,000 in 6 per cent. gold bonds for alleged worthless stock in Mulholland's company.

GAS CO. FRANCHISES OPEN TO ATTACK

City Authorities May Try to Break Them Unless Litigation Now Pending Over Exorbitant Bills Is Compromised.

Comptroller Grout has had a talk with Assistant Corporation Counsel Stetling regarding the pending suits over last year's bills for public lighting, amounting to about \$3,250,000. As a member of the Low administration Mr. Grout took a strong position against the payment of these bills, on the ground that they were exorbitant. With Mayor Low and President Farnes, of the Board of Aldermen, he signed a report to the Board of Estimate, as a result of which the bills were held up by Col. Robert Grier Monroe, Commissioner of Water Supply, Gas and Electricity.

The attitude of the McClellan administration toward the Lighting Trust will be determined largely by the outcome of the litigation now pending. It is understood that the trust has offered to make some concessions both as to last year's bills and as to future charges for lighting the streets and public buildings. Should the matter be compromised, the administration is not likely to take a firm stand against the combine as it might otherwise do.

Mr. Grout is as firmly opposed to paying the bills in full as he was last year. He told Mr. Stetling that he

would talk with the Mayor on the subject at the first opportunity. The Mayor has not yet intimated what policy he will pursue in dealing with the question. Until he announces his position, Mr. Stetling said to a World reporter, no action will be taken by the Corporation Counsel's office.

Franchises in Doubt

During the administration of George L. Rives as Corporation Counsel an extensive study was made of the relations between the city and the gas and electric light companies, the results of which are embodied in numerous opinions on file in the office. Facts were discovered which raised grave doubts as to the validity of the franchises of the gas companies. In the only case which was carried to the courts the opinion of the Corporation Counsel's office that a Staten Island company was operating without a franchise was upheld.

Edward J. McGuire, who, as assistant to Mr. Rives, had charge of the investigation of gas franchises, said yesterday to the World reporter: "It would be impossible to express an opinion as to the validity of any franchise without an exhaustive study of the law and all the facts in the case. Given the constitutionality of the law under which the old gas companies were consolidated has never been passed upon."

It is more than possible that this statute would be declared void if the question should be tested in the courts. All the opinions prepared on these questions are in the Corporation Counsel's office for the information of the new administration. What further action shall be taken is purely a question of policy.

Corporation Counsel Delany has been confined to his home for several days by an attack of grip. He is expected to be able to return to his office. Before his illness he had commenced an investigation of the questions involved in the city's relations with the Gas Trust and he will soon be in a position to advise the Mayor how to proceed.

Debut of the Theatre.

The Sunday World's weekly page of theatrical pictures is very popular. On the first of its issue next Monday, before the opening of the new season, it will be printed in four colors, will be found this week a particularly interesting and attractive group of stage favorites.

BANK PRESIDENT IS A LOAN SHARK

Information Obtained That He Was a Partner in Three of the Concerns That Recently Have Been Raided.

Assistant District-Attorney Kreech, who has charge of the crusade against the loan sharks, says he has obtained information to the effect that the Aetna Security Company, the Manhattan Finance Company and the Globe Security Company, three of the institutions against which the crusade has been directed, are owned by two brothers, one of whom is president of a State bank in this city.

None of the employees yet arrested has confessed, but it is hoped that in view of the fact that some of them are liable to be sent to prison instead of being fined they may be induced to tell who the real owners of the institutions are.

When they were simply fined the loan companies paid all fines and the clerk could not be induced to tell anything. One sentence to prison will cause plenty of confessions, I think," said Assistant District-Attorney Kreech. "Then, I think we shall be able to make out names against the backers of these concerns."

Mr. Kreech said he would like to get evidence enough against the banking official mentioned to present to the Grand Jury.

The Lobster Merger.

Lobsters cannot be persuaded to grow in seasonable numbers. If a dozen newly hatched specimens are put into one tank, within a few days there will be only one—a large, fat and promising youngster. He has eaten all the rest.
